GOVT 18 AUG 1940 EDUCATION

Ref. G.O. 2-4 dated

The Panchayat Board, Kamalapuram, has authorised me to submit a copy of the memorandum, herewith enclosed, it has sent to the District Board, Bellary, requesting them to convert the existing Rural Dispensary into a Local Fund Dispensary we have, in anticipation of the fulfilment bought a building at a cost of Rs 2500 and are faced with the duty of maintaining it fit, for no purpose. The District Board has been requested to recommend our case to the Govt and if the Government grant be given, we assure you, we shall provide for the initial cost of the Dispensary and should there be any need meet the expenses for a Term or So, till the Board is able to finance the experiment. This, our preparedness is the unmistakable expression of our need, and our need is our greatest recommendation and we hope the Government will as readily come to our aid as we often our best to this work of lasting public benefit.

Yours most obediently

J. Chandrappa.

---

Sir,

The village of Kamalapuram, on behalf of which this memorandum is being submitted, You know, is an irrigated village with malaria devilishly persecuting the people all through the year. Its population should have made it a minor town per census calculations but for its proximity to Hospet. It is adjecent to Hampi which attracts visitors daily. Round about lie scattered small villages completely enveloped by wet fields but absolutely un-aided against ill-health and disease. Thus the medical requirements of this place are a little above the average when compared with any other village of its size.

A rural medical dispensery, poorly equipped and in-adequately aided, has been in existence for a few years ~~paxxt~~ past. The attendance is un-managebly high and the facilities are in-credibly few. In view of the requirements of the villagers and the neighbouring ~~xxx~~ villagers coupled with the incessant floating population the Panchayat Board moved the District Board to convert the Rural medical institution into a pucca Local Fund dispensary.

The matter received the earnest attention of the District Board as far back as 1937 ( No.512/37 s.4. ) and the Board resolved on 29-1-38 (vide Rcs 25-5) to convert the dispensary into a regular Local Fund one, funds permitting. The Panchayat Board was asked to co-ordinate its efforts in procuring a building for

the proposed

the proposed hospital, free of rent. The suggestion was aggreed to by the Panchayat Board and arrangements were made to purchase a building for the said purpose through the District Board (vide Rcs 22-23 P.B.25-7-37) The District Board itself advanced a loan for this purpose (Rcs 29/37) The building was thus bought and has been lying idle since then. In spite of repeated requests the District Board did not take up the matter on hand for about an year and ~~xxxxxxxxxx~~ a half and unfortunately discussed the matter only to find its financial condition such as not to favour the compliande of our long cherished and badly needed want.

Meantime reports of the medical Department have pointed consistantly to one direction, viz, the conversion of the dispensary into a Local Fund one urgently. The D.M.O. has gone to the extent of recommending the closing down of the existing dispensary, if the present circumstances were to continue. He was informed that the public of this village could be made to subscribe towards the cost of furniture and instruments partly.

This matter, in which the Panchayat Board has tried its best to extend its co-operation by securing free accommodation and promising partial contribution towards the initial costs, has been unduly delayed in-spite-of the urgent need.

It is keenly felt by the villagers that the District Board should reconsider its decision in a more sympathetic manner and also in co-operation with the members of our Panchayat Board, so that a way out of the financial difficulty may be found by such mutual co-operation. Financial stingency should not be, we think, the last word on works of public utility. Fresh avenues can be explored and Public benifit may be effected. In

view

view of this feeling we make bold to suggest to the District Board that it should recommend our case to the Government and tbe secure as much help as it can from the Governmental funds. We firmly believe that it is the decided Policy ~~of~~ of the Government, particularly the medical department to assist such schemes of public utility as is involved in this case. We are sure, if only the President, District Board can interest himself in this matter, bring pressure on the Government and secure half the contribution towards the annual upkeep of the proposed dispensary as is usual, we understand, with the Government. The District Board would be in a better position to reconsider the matter.

In conclusion we xx urge that this opportunity of creating a well provided regular dispansary in such a needy place as this should not be allowed to slip away and the District Board should do its best towards that end satisfying thus the medical department on one hand and serving the needy public on the other, while enriching their administration with an act of popular service which is bound to be remembered by the Public of this village as well as that of the surrounding villages for all times to come.

Kamalapuram.
Dated 21st July 1940.

J. Chandroppa.

(Designation) President,District Board,Bellary.

To The Secretary to the Government of Madras,

Education & Public Health Department.
Fort Saint George,Madras.

Sir,

Resubmitted with the following remarks.

2. The proposal for the conversion of the present subsidized Rural Dispensary into a Local Fund Dispensary at Kamalapur,Hospet Taluk cannot be considered on account of paucity of funds. The Government have decided in April 1928(G.O.No.896 P.H. dated 17-4-28) to discontinue to meet half the maintenance cost of institutions which are to be opened after that date. If the Government as a special case sanction a grant to cover half the cost of the institution if converted into a regular dispensary the Board will be in a position to effect the change.

I have the honour to be,
Sir,
Your most obedient servant,

President,District Board,
Bellary.

C. No. 12243/41 3-4,

*Station* Bellary, *Dated the* 15th November 19 41.

From (Name) Sri: P.Loki Reddy,
(Designation) Vice-President Incharge, District Board, Bellary.

To The Secretary to the Government of Madras,
Education and Public Health Department.

Through The Surgeon General with the Government of Madras. and the District Medical Officer, Bellary.

Sir,

There is a rural subsidized dispensary of modern -- medicine at Kamalapur an old Panchayat Village of the -- Hospet Taluk of this District. The institution has been in existence for the last fifteen years. It caters not only to the village proper with a population of about 5000 but also to a group of neighbouring villages all situated in the Malarial zone being surrounded by wet cultivation irrigated by the Tungabhadra channels. Kamalapur is situated with a travellers bungalow at the entrance to the historical ruins of Hampi (remnants of the capital of the forgotten

Empire

Empire of Vijayanagar) which attract tourists and distinguished visitors during all parts of the year.

2. In recent years there has been constant pressure from the public for the conversion of the rural dispensary into a regular dispensary. The District Board considered the question in 1938 and passed a resolution ~~xxxxx~~ approving the proposal for the conversion, which was supported by the District Medical Officer. He entirely agreed with the contentions of the public. The Board could not carry out the decision into effect for want of funds. Of late the public of Kamalapur have pressed this question very prominently. The Panchayat has ~~xxxx~~ acquired a decent building for locating the dispensary and has resolved to make an annual (recurring) contribution of Rs.200/-., for the maintenance. The public are ready to provide the necessary initial equipment.

3. Copies of reports of the District Medical Officer made in May 1937 and October 1941 after inspection affording a correct picture of the situation by responsible officers of the Medical ~~purpose~~ profession are enclosed for favour of perusal.

K 4. In view of these facts I request that Government may be pleased to sanction as a very special case the conversion of the Rural Dispensary into a regular Dispensary and direct the payment of a grant equal to a moiety of the cost that may be incurred for the institution in strict accordance with the advice of the District Medical Officer, Bellary as economically as possible.

P. Lakshmanaraya.

Vice-President
Incharge, District Board,
Bellary.

Rural Dispensary - Kamalapur - Conversion into Local Fund Dispensary - Suggestions - Made.

---

In a recent Inspection of the Rural Dispensary at Kamalapur, I was met by the citizens of the locality. They are all clamouring for the conversion of the Rural Dispensary into a Local Fund Dispensary. They bring forward the following array of reasons:-

1. The locality is highly Malarial more than 50% of the population suffering from enlarged spleens. Now a Rural Dispensary with its limited supply of Quine can never successfully tackle with the proper treatment of Malarial patients. On this account alone, a Local Fund Dispensary is an urgent necessity.

2. The Historic Ruins of Humpi close by attract a continuous flow of tourists not only from various parts of India; but also from Foreign lands. Kamalapur is the nearest place for these tourists to lodge and board. It need hardly be remarked how grateful these outsiders will feel if there were at least a Local Fund Dispensary in the locality.

3. There are frequent fairs and festivals both at Kamalapur and Humpi at which large crouds gather several times in the year. At present Medical Officers from outside have to be imported for purposes of First Aid, Sanitation, Vaccination etc., The establishment of a Local Fund Dispensary will obviate this necessity.

4. The Rural Dispensary at present caters not only to the needs of Kamalapur with a population of 5,000; but also to the neighbouring villages including Anegundi on the other side of the Thungabhadra. This is too much of strain on the resources of a Rural Dispensary.

The above facts put forward by the citizens are in my opinion very reasonable. Further, the average daily attendance which is now about 70 is more than what obtains in some Local Fund Dispensaries. I am strongly of opinion that the scheme of convert-ing Rural Dispensaries into Local Fund Dispensaries can be very advantageously extended in this case. I, therefore, recommend that the District Board will take up this question at an early date and convert the Rural Dispensary into a Local Fund Dispensary to the satisfaction of everybody concerned.

(True Extract)

Vice-President, Incharge,
District Board, Bellary.

Conversion of the Rural Dispensary at Kamalapur (Hospet Taluk) into a pucca dispensary.

---

At the time of my inspection of the Rural Dispensary at Kamalapur on 23-10-41 I was met by several prominent ~~x~~ citizens of the place. They expressed the immediate necessity of the conversion of the Rural Dispensary into a pucca dispensary. My predecessor had already explained the reasons for the same in his No.695/37 dated 17-5-37 and I fully endorse the same. You were pleased to consider the question when the financial position of the Board improved. (Vide your C.No. 512/37 dated 20-5-37 and wanted the President Panchayat Board Kamalapur (Vide your C.No.512/37 dated 4-6-37) to come forward to the help of the District Board with a suitable rent free building well-equipped for the location of the Dispensary.

2(a) Accordingly a well suited spacious building in a suitable locality has been purchased by the Panchayat Board, Kamalapur at a cost of Rs.2200/- in 1937 to provide accommodation for a pucca dispensary. This building will be given free of rent to locate a pucca dispensary. Further there is accommodation for the Sub-Assistant Surgeon to live there.

(b) The Panchayat Board is also prepared to make an annual recurring grant of Rs.200/- and

(c) to give a toty to the Dispensary at its cost.

(d) A few important citizens of the place are also willing to furnish the pucca dispensary with furniture, instruments and medicines at a cost of about Rs.1500/- towards initial -- expenditure.

The average attendance is nearly 80 and ~~x~~ is more than what obtains in a few pucca Local Fund Dispensaries. The ~~exp~~ requirements of the inhabitants, the neighbouring villages ~~with the~~ coupled with the incessant floating population have not been served by the present Rural Dispensary which is meagerly equipped and inadequately aided.

The present dispensary building is totally inadequate and most unsuitable.

I append below a statement showing the expenditure already incurred on the existing rural dispensary and the expenditure to be incurred when the Dispensary is converted into a pucca one.

| Expenditure that is now incurred on the Rural Dispensary. | Monthly | Annual |
|---|---|---|
| District Board subsidy for the Medical Practitioner | 15 | |
| Pay of Midwife | 25 | 600/- |
| Pay of male Nursing orderly. | 10. | |
| Medicines. | .... | 360/- |
| Total. | | 960/- |
| **Expenditure on a pucca Dispensary.** | | |
| Pay of the Sub Assistant Surgeon | 65 | |
| " Midwife. | 25 | |
| " Compunder. | 25 | 1596/- |
| " Male nursing orderly. | 10 | |
| " Female -do- | 8 | |

Carried over

| | | |
|---|---|---|
| | Brought forward | 1596/- |
| (A ~~total~~ will be given to the Dispensary at the cost of the Panchayat Board.) | | |
| Cost of medicines etc., | | 800/- |
| contingencies. | | 60/- |
| | Total. Rs. | 2456/- |
| Deduct present expenditure on the Rural dispensary as above. | 960 | |
| Deduct Panchayat Board annual grant | 200 | |
| | | 1160/- |
| Net expenditure to be provided by the District Board. | Rs. | 1296 or 1300/-. |

Dear Mr. Austin,

You know I am interested in all things relating to the Ceded Districts. So I have to trouble you in regard to a matter which is in your gift.

There is a Rural Dispensary at Kamalapuram in Hospet taluk. Kamalapuram has a population of about 5700. It is about 3 miles away from Hampi ruins. Always there is a large floating population passing through the village. During festivals there is always the fear of outbreak of epidemics. Moreover, it is somewhat malarial too. While a Rural Dispensary is certainly better than having no Dispensary, I am sure you will agree a good L.F. Dispensary is an improvement in view of its permanence, better equipment etc. I understand the District Board, Bellary, has asked for the conversion of the Rural Dispensary into an L.F. Dispensary. The people of the locality have offered a building and have agreed to provide the Dispensary with necessary furniture and equipment. I shall be grateful if the Government are pleased to consider the request of the District Board favourably. I learn Major General Stott recently visited Kamalapuram and was impressed with the necessity of converting the Rural Dispensary.

If any further information is required, I shall be glad to furnish the same.

Thanking you,

Yours sincerely,

Dear Mr. Suryanarayana Rao,

Conversion of the rural dispensary at Kamalapur into a regular L.F. dispensary.

I have your letter of the 18th December. It is true that the District Board, Bellary, has proposed the conversion of the rural dispensary at Kamalapur into a regular L.F. dispensary. The Board has however asked that Govt should meet one half of the extra cost. The policy of the Govt settled so long ago as 1928 is that the local bodies concerned should find from their own funds the cost of medical institutions opened by them after the 17th April 1923. The reason for this decision is that Govt have already relieved local bodies of a considerable financial burden by taking on institutions which were previously maintained by them and that

16 to

it would not be fair to the general tax payer if ~~guardian ship is given to the~~ further subsidies were given on behalf purely of institutions which met local needs. This policy has been consistently adhered to since. ~~The Dt Bd, Bellary, is therefore~~ being asked if it would meet the extra cost from its own ~~funds~~.

Yours.

ASST. SECRETARY TO
2 DEC 1941
PUBLIC HEALTH

Dear Mr.Austin,

Thank you very much for your D.O.No. 50503-2, D.2.P.H. dated 22nd instant. I am thankful to you for informing me the policy of ... Government. Need I assure you that I have no quarrel with it.But the somewhat case of Kamalapuram, I submit, stands on a different footing. I have already mentioned the peculiar circumstances of the place.Moreover, the public have come forward to bear the non-recurring expenditure including the provision of a building. I understand the Government already pays a subsidy of Rs 500/. If my information is correct the District Board spends Rs 1000/. I do not know if any portion of this amount is contributed by the Government. The cost of maintaining a Local Fund Dispensary is, I learn, about Rs 2600/. If the District Board is willing to increase its contribution from Rs 1000/ to Rs 1300/- the increase in Government grant will be from Rs 500/- to Rs 1300/-. In view of the fact that the dispensary is in a backward district, where facilities for Medical relief are inadequate, I submit, the Government may be pleased to alter their policy in respect of this area especially as it is near a pilgrim centre and is in a malarial area. I request you to consider favourably and as a special case sanction this dispensary. The finances of the District Board, Bellary, cannot in the present circumstances improve unless the

SERVANTS OF INDIA SOCIETY,
ROYAPETTAH, MADRAS.

Telephone No. 86252.

economic conditions of the tract improve. This is another extenuating circumstance.

Thanking you,

Yours sincerely,

Ramanarayana Rao

T.Austin, Esq., I.C.S.,

Medical Institutions - Rural - Bellary Dt. Kamalapur Conversion into a regular one.

---

H 1-2 CF C.No 50503. From the P.D.B. Bellary C.No 12243/41-S-4 dt 15-9-41

H 9 to CF From the Surgeon-General No 54363 H dt 15.12.41

---

H 1 CF The P.D.B. Bellary, requests the Govt to sanction the Conversion of the subsidised rural dispensary at Kamalapur in the Bellary Dt into a regular L.F dispensary and direct the payment of a half grant towards its maintenance as a special case. The S.G Considers that the daily average attendance at the rural dispensary is large enough to ~~Convert~~ justify the conversion of the dispensary into a regular one and suggests that steps may be taken to see that the Dt Bd does not within a short time think of reconverting the dispensary into a rural one.

(9) 2. According to para 19 of Go. No 896 P.H dt 17.4.28, no half grant is admissible towards the maintenance of the proposed regular L.F dispensary and the P.D.B. Bellary, was informed in Go No (U) 3962 P.H dt 29.8.40, that the Govt saw no special reason to reconsider their decision contained in the above order. The request for a half grant towards maintenance may be negatived.

3. The ultimate extra Cost to the Dt Bd.

on account of the Conversion of the rural dispensary into a regular one will be Rs 3,000 as shown below:—

| Establishment | | Rs per annum. |
|---|---|---|
| One Subassistant Surgeon | (average pay) $86\frac{1}{3}$ | 1040 |
| Midwife | (Rs 30) | 360 |
| Compounder | (Rs 30) | 360 — p 5 of |
| Nursing orderly (male) | (Rs $15\frac{1}{2}$) | 186 |
| do (Female) | (do) | 186 |
| Medicines | (Rs 800) | 800 |
| Contingencies- | | 60 |
| | | 2992 or 3000 roundly |

Deduct expenditure incurred on the rural dispensary + Contribution from the Panchayat Board. Rs 1160.

Net expenditure Rs 1840

The question of converting the rural dispensary into a regular one does not appear to have been placed before the Bd. The P.D.B. Bellary may be informed that no grant towards the maintenance of the dispensary is admissible and he may be requested to report whether the Bd is prepared to meet the extra cost involved.

No need to go into all this. What PDB wants is a grant.

A draft memo is submitted below for approval. A draft letter to Mr. Suryanarayana Rao is also placed.

16/12/41

20/12

22/12

There can be no question of altering the policy laid down & to give grants.

Draft memo issued

22-12-41

15/12

pp13-14 CF [Memo no 50503-1 (Dr) PH dt 22-12-41]
pp15-16 CF [Do. no 50503-2 (Dr) PH dt 22-12-41]
pp17-19 CF From Sri R. Suryanarayana Rao - Do dt 24-12-41

Resubd: with refce: to the further letter at pp 17-19 c.f. What Mr. Suryanarayana Rao suggests is that the Dt: Bd: should be allowed to divert the Govt: subsidy of Rs 500 a year now paid to the Rural Dispensary for the maintenance of the proposed d.f. regular Dispensary and give new addl: subsidy of Rs 800 a year to bridge the gap between the Rs 500 and one-half of the cost of maintaining the suggested regular Dispensary. It is not the policy to accede to such requests as explained (The rural Dispensary subsidy cannot be transferred to support a like Dispensary in a different locality in the Dt: Bd: area but not a regular Dispensary)

E 20/12. 5 ✓

There is no reason to treat Bellary differently from other Bds. Govt. are going to subsidise the

4

maintenance of L.F dispensaries they must do this for all Boards & not for one only. At present their policy is not to do this & Rao S.R. may be told that Bellary cannot solely be given what is denied to others.
